

1. Yg ni lps tekan find a role tu dia suruh login/register kan. Tapi lps login tu dia terus ke profile. So aku rasa better lps login tu terus ke dashboard.

2. Pastu yg ni Dashboard yg atas takyah letak kut tapi mana2 je sbb dkt tab tepi tu dah ada. Ehh tapi kalau tekan contact apa semua tu takde laa pulak kan dashboard tu.
3. Tak pun kau buang yg dkt tab tu je

4. Kalau part ni aku rasa lps submit application tu terus ke my application page
5. Pastu lps login dgn register tu pun terus ke dashboard dulu
